

The Psalms

The Psalms make up the Bible's longest book. Some of them contain the most quoted verses in the New Testament. Jesus used them as his prayer book and quoted from them in his teaching. He met temptation with them, sang from them at the Last Supper and died with one of them on his lips.

The Psalms describe God as King, shepherd, merciful, fortress, rock, shield, refuge, protector, light, great and most worthy of praise.

Using this imagery unpack the nature of God. For example... He is a rock, what does that mean? He is a shield, what does that mean? Discuss each of the descriptions as a class.

On the paper that you have been given,
choose 2 things God has been described
as.

Draw a picture and explain what you
think it means.
