

## How do I set it up?

All of the children will have been given their own personal login details by their class teacher. These will be part of the home learning packs. The login details are in the form of a QR code (or you can use the text code on a computer) and instructions of how to log in are also provided.

**Child 1's Home Learning Code**

1. Go to <https://app.seesaw.co> on a computer. Or install the Seesaw Class App on an iOS or Android device.
2. Choose 'I'm a Student'.
3. Scan this code using Seesaw's built-in QR code scanner. Or type in these letters to access your Seesaw account: **KPYA PPEP MCEU RPUT**

Instructions

Text code

QR code

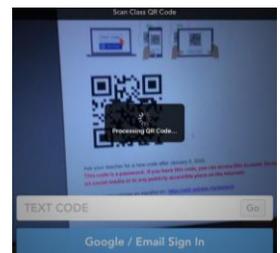

If you are using a computer simply google search Seesaw and select login on the top right hand corner of the screen.

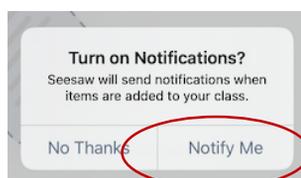

If you are using a phone, iPad or tablet download the [Seesaw Class](#) app from the app store.

On any device you should then select I'm a student. You will then be asked to scan the QR code or enter the text code to login.

To complete the set up press **Notify Me**. This will alert you to any messages or work sent by your class teacher.

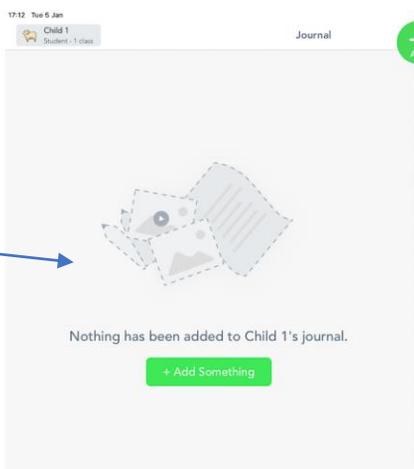

## How to use Seesaw for Home Learning

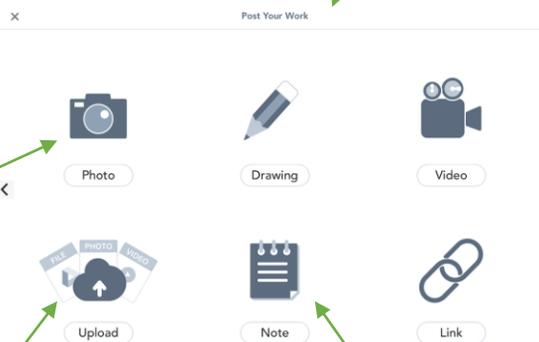

Seesaw allows teachers to send home learning activities to the children in their class. It also allows the children and parents to send the completed activities back to the teachers for feedback. The best thing about Seesaw is that it keeps a record of all the work the children have completed in their journal. The journal is a secure space and only the children, parents and teachers can see their work.

When you log in to Seesaw it will take you straight to the child's journal. This will become full of their completed activities.

To upload a piece of work or send a message to the teacher press the green plus sign.

It will then take you to the following options.

To send a picture of an activity or piece of work.

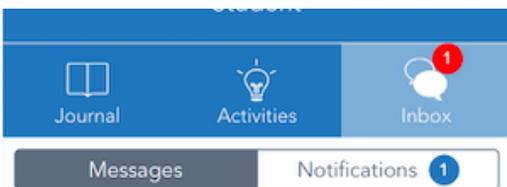

To upload a file such as a PDF or word document.

To write a message to the teacher regarding the work provided or for the children to type their work.

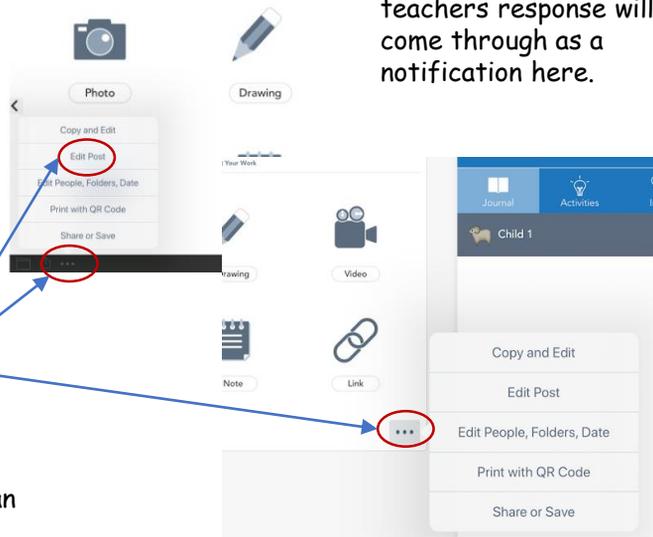

Please note that the teachers response will come through as a notification here.

## Where are the activities?

When your child receives an activity or a teacher sends/ replies to a message you will see a red dot above the inbox tab. You will then be able to view the message or the activity.

Occasionally the activity may allow your child to respond/ edit the activity on Seesaw. If this is the case you will see three grey dots. Click on the dots and then select edit post. Don't forget to save your changes and send it back to your teacher by clicking the green arrow.

Please note how you respond to activities and upload the work is entirely up to you and you can use any of the methods shown here.

**We really look forward to see all the fantastic work that will be happening at home!**
